Empathize & Discover

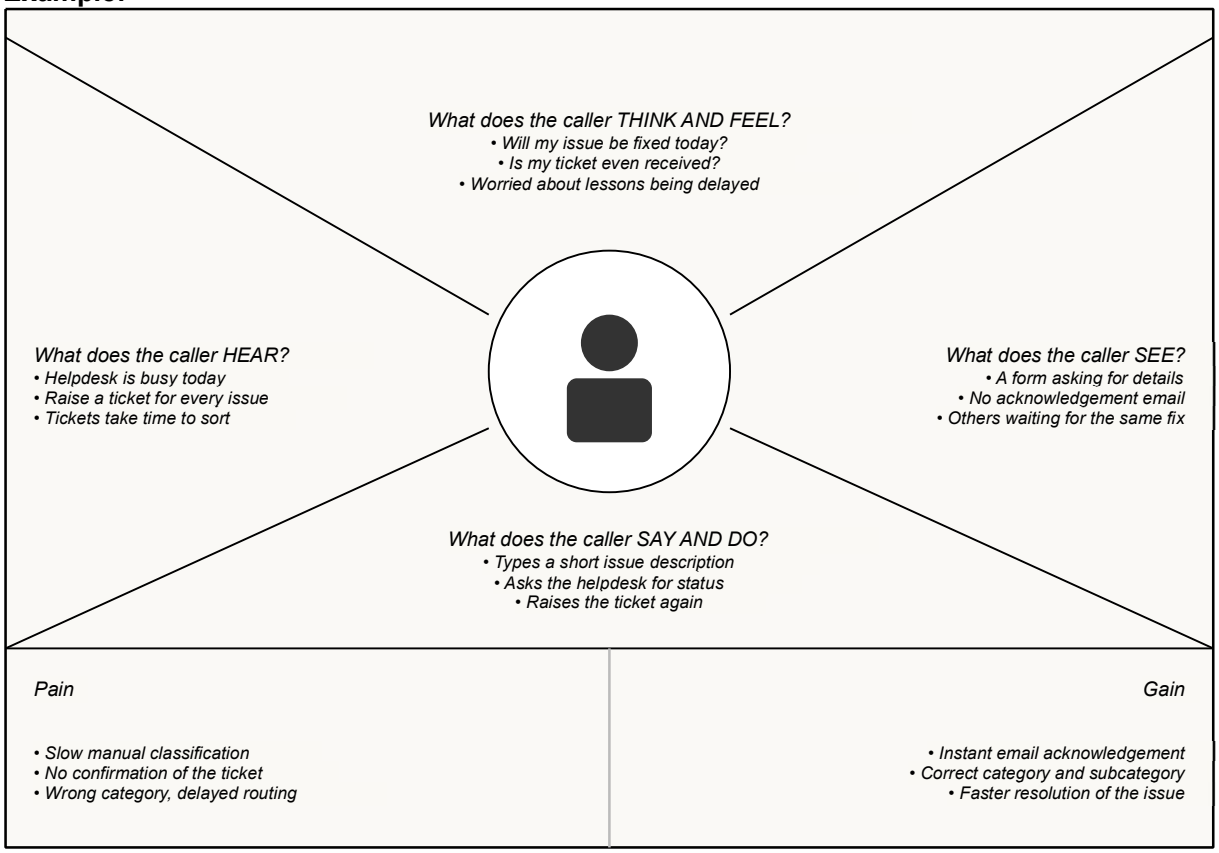

Team ID	SWTID-2026-7816
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. For this project the user is a student or teacher who raises an IT support ticket at the school helpdesk.

It is a useful tool that helps the team better understand its users. Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helped the team consider things from the caller's perspective along with his or her goals and challenges.
