Project Design Phase-II
Data Flow Diagram & User Stories

Team ID	SWTID-2026-7816
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

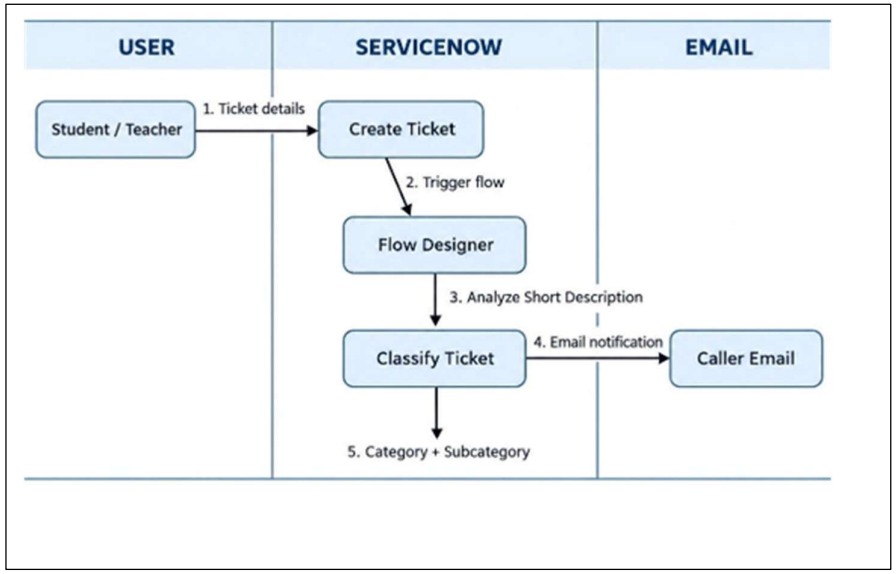

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: (Simplified)

Example : DFD Level 0

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Student / Teacher	Ticket Creation	USN-1	As a student or teacher, I can create an IT support ticket with Caller Name and Short Description.	A new IT support ticket is created.	High	Sprint-1
	Ticket Notification	USN-2	As a student or teacher, I can receive an email notification after creating a ticket.	I receive the ticket creation email.	High	Sprint-1
